Speaking Assessment

INFORMAL CONVERSATION

P: Hi

R: Hello

P: What's your name?

R: Ritika. And yours?

P: Priyal.

R: Priya?

P: No, it's P_R_I_Y_A_L, Priyal.

R: Oh, that's a nice name.

P: Thanks. So where are you from?

R: I'm from Jabalpur, Madhya Pradesh, and you?

P: I'm from a small town Bhilai in Chhattisgarh.

R: Bhilai? Oh, I know that place. Isn't it famous for Bhilai Steel Plant?

P: Yes-yes. Both my parents work there only.

R: So which branch are you from?

P: B. Tech IT, and you?

R: Me too. Let's hope we get sorted into the same batch as well.

P: So, is it your first time living in a hostel too?

R: Yes, it is. It is going to be so much fun.

P: I agree. Hey, do you want to go together to the orientation tomorrow?

R: Yeah, sure. We should probably exchange numbers though.

P: Oh yes let's do that. How about we go and have lunch while we're at it?

R: Ok, let's go.

FORMAL CONVERSATION

P: Good morning ma'am.

R: Good morning. Please take a seat.

P: Thank you ma'am.

R: Please hand over your resume.

P: Here you go ma'am.

R: Ok so, Priyal tell a little about yourself.

P: Myself Priyal Bhardwaj. I come from a small town Bhilai in Chhattisgarh and have completed my schooling from there itself. My hobbies include reading books, singing etc. I was the team leader of my school display board team. I also qualified both RMO and IMO in 2016.

R: You said you read books. Which book did you last read?

P: I read a non-fiction book called Outliers by a renowned author Malcolm Gladwell.

R: Ok Priyal. I will now ask some subject related questions.

P: Of course ma'am.

R: What is the relation between continuity and differentiability?

P: Ma'am, a function which is continuous need not be differentiable but a function which is differentiable must be continuous, at any given point.

R: What is the work done by Lorentz force in a magnetic field only system?

P: Ma'am, we will have to find out the dot product of force and displacement.

R: Okay Priyal. What was the old name of Bandhan Bank?

P: I'm sorry ma'am, I do not know.

R: Ok Priyal, now tell me why do you want to go into management and not engineering?

P: Because ten years down the line, I see myself not as an engineer but as a brand manager. Even if I do go for a four-year undergrad engineering programme I'll still go for IIM after that to be able to fulfill my dream.

R: What will you do if you do not get into this course.

P: I have backup options available for me if this does not work out. I've been accepted into SCMS Pune for BBA and have gotten IT branch in VIT. I might also consider taking a drop and preparing for IPM again.

R: Ok Priyal, that is all. You may leave now.

P: Thank you ma'am.

R: Thank you.
